

*This home may have been altered from the plan's original design.*

**Columns** define the formal living and dining rooms flanking the entry

**1,400 sq. ft. on main level, 1,315 sq. ft. upstairs**

**A fireplace**, a beamed cathedral ceiling and arched windows highlight the family room

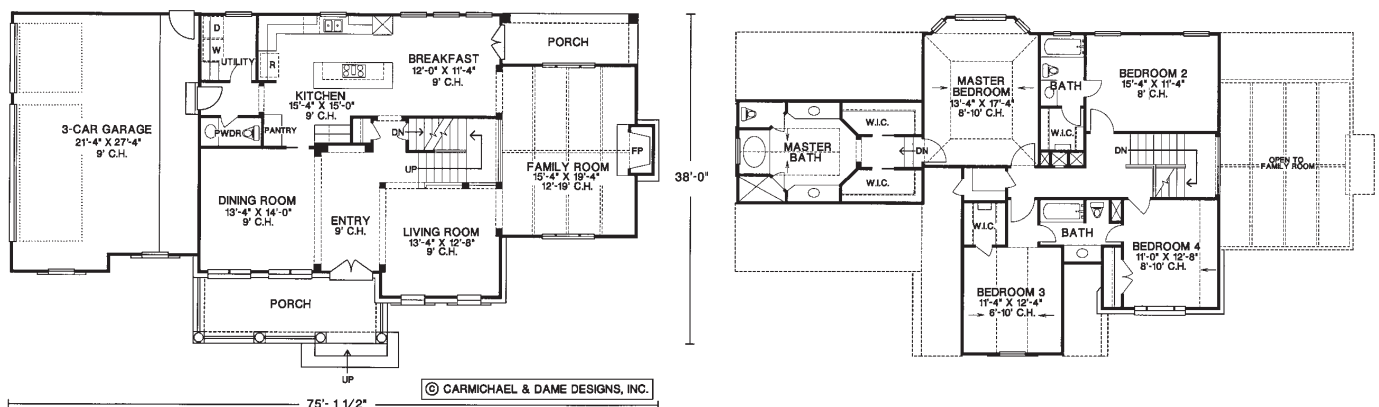

**The kitchen/breakfast area** is very open with a center cooktop and roomy snack bar

**The breakfast area** offers access to a private back porch

**A sunken location** provides a bit of drama for the master bath, which enjoys two vanities and walk-in closets and a whirlpool

**An angled ceiling** highlights Bedroom 3, which shares a bath with Bedroom 4

**Bedroom 2** boasts a private bath and walk-in closet
